Apprenticeship Ambassador Network (ANN)

The FSC hosted the Apprentice Ambassador Network, a group of volunteer employers committed to promoting apprenticeships. As well as discussing national apprentice policy and planning, the group also 'rolled up their sleeves and were taught new practical skills by the current FSC students. The FSC's Business Admin Apprentice Paige Keegan is a one of the Network's 'Young Ambassadors' who will be representing the FSC regionally and nationally in the future.

APPRENTICE DEVELOPMENT PROGRAMME

PURPOSE:

Create a skills development programme which delivers trained apprentices in to permanent full-time employment at the Prince Philip Park Development in Bordon, Hampshire.

Lee Bishop: MD, Major Developments for TW (*pictured right*) in full flow, as part of the Capital Markets Day held at the FSC. TW will be working closely with the FSC from Sept, with the delivery of apprenticeships.

Future Horizons Event at the FSC

The event focused on construction and property and featured talks from industry figures and a multitude of exhibitors, including employers, higher education providers, councils and relevant industry bodies. Throughout the evening, potential students booked onto apprenticeship programmes and courses provided by a range of businesses - a key aim of the event. The careers evening was a joint venture between the Whitehill and Bordon Regeneration Company, National Career Service, and the FSC.
