The FSC Roadshow

The FSC has been on the road recently for careers events at Godalming and Horndean Colleges. Both provided ideal platforms to spread the message to pupils regarding all of the great construction training available at the FSC.

School Taster

Pupils from Amery Hill have visited the FSC to undertake a short taster. After a brief presentation and tour, they were given a demonstration by a tutor, then mentored by our current C&J fulltime learners and completed a standard wood joint.

Construction Skills Fund

We are continuing with our collaboration with HCC in delivering CSCS card training. A number of full-time FSC learners completed the test, with Bailey Hunt and Jake Laird (right) achieving 100% in the exam!
